16. Performance Review

The Group recorded a revenue of RM9.11 million for the current quarter under review, which is RM7.95 million or 47% lower than the corresponding quarter of RM 17.06 million for the previous financial year, mainly due to lower value of contract works being completed during the current quarter.

The loss before taxation for the current quarter under review is reported at RM2.06 million, compared to profit before tax of RM2.52 million in the corresponding quarter for the previous year. This is mainly due to a drop in revenue and gross profit margin as well as an overall higher overhead costs recorded in the current quarter compared to the corresponding quarter in the previous year.

17. Material changes in profit before taxation for the current quarter as compared with the preceding quarter

The Group's loss before tax for the current quarter ended 31 March 2008 of RM2,060,850 represents an increase of RM268,385 or 15% compared to the loss before tax of RM1,792,465 in the preceding quarter ended 31 December 2007 due to a drop in revenue and lower profit contribution from the associates despite the decrease in operating costs for the current quarter under review.

In view of the order book and the potential projects the Group is currently pursuing, the Directors are optimistic that the Group's performance should be able to improve for the remaining quarters of the financial year ending 31 December 2008.

25. Off Balance Sheet financial instruments

The Group had not entered into any contracts involving off balance sheet financial instruments as at the date of this announcement.

26. Changes in material litigation

There were no changes in material litigation, including the status of pending material litigation since the last annual balance sheet date of 31 December 2007, except as disclosed below:

- (i) Metronic Engineering Sdn Bhd ("MESB") had on 26 September 2003 made a claim against United Engineers (Malaysia) Bhd ("UEM") for RM939,365 being the non-settlement of the third payment for the provision of BAS Control System for Telekom Malaysia Berhad Headquarters Project pursuant to an agreement between MESB and UEM dated 2 May 2002. The Court has fixed 4 and 5 November 2008 as the full hearing date for the suit. MESB's solicitors are of the opinion that MESB has a good chance of succeeding in its claim.

- (ii) Lee Bee Leng & two (2) others vs (1) MESB and (2) University Teknologi Petronas ("UTP"). On 15 November 2005, MESB, being the first (1st) defendant was served with a Writ of Summons dated 24 October 2005 by Lee Bee Leng & two (2) others ("Plaintiffs") claiming for among others general damages amounting to RM500,000 or to be taxed by the court ("Negligence Claim") and special damages amounting to RM403,550 ("Dependency Claim") due to the death of the 1st Plaintiff's husband and 2nd & 3rd Plaintiff's father at UTP job site. The maximum exposure to liabilities of MESB and University Teknologi Petronas is therefore estimated at RM903,550. The Plaintiffs claimed that the death was caused by the alleged negligence of MESB and UTP.

MESB's solicitors are of the view that MESB may be able to resist the Dependency Claim successfully by virtue of the fact that the claim is beyond the legitimate timeframe, which is three (3) years ("Defence of Limitation"). As such, an application for striking out the Dependency Claim dated 7 September 2006 had been filed with the Ipoh High Court. The Court has fixed 4 September 2008 for Decision for the striking out application.

For the Negligence Claim, (or if the Defence of Limitation is unsuccessful on the Dependency Claim), MESB's solicitors are of the view that the Plaintiffs' claim would very much depend on, among other things, the availability and strength of the Plaintiffs' witnesses' testimonies and the proving of the requisite ingredients of the negligence by the Plaintiffs on the balance of probabilities. If the Plaintiffs fail to reach the standard required, then the Plaintiffs' action will fail against MESB and UTP. Moreover, the Plaintiffs must also prove specific acts or omissions of MESB and UTP, that are alleged to be negligent. At this point in time, it is difficult to determine liability as the premises was under the control of UTP (2nd Defendant) and till todate no evidence has surfaced as to what cause the accidental carbon dioxide release during testing period. In the opinion of MESB's solicitors, MESB should have a good arguable case.

26. Changes in material litigation (Contd.)

- (iii) On 9 January 2007, MGB through its solicitors, received a Writ of Summons and Statement of Claim dated 23 November 2006 with the High Court of Shah Alam issued by CWorks Systems Berhad ("CWorks"). CWorks is claiming an outstanding amount of RM1,751,617 from MGB pursuant to a Software Development Agreement dated 9 May 2005 ("the Agreement") for the development and provision of a software for the National Product Code System, the Sale Force System and the Project Management Tool System in the People's Republic of China ("PRC"). The maximum exposure to MGB is estimated at RM1,751,617.

The Company's solicitors had on 16 January 2007 filed a Conditional Appearance challenging the action as not within the Jurisdiction of the High Court of Malaya but any remedy sought by CWorks should be referred to Arbitration under Malaysian Laws. On 30 August 2007, the Deputy Registrar of the High Court of Shah Alam has allowed the Company's application that the Suit by CWorks against the Company to be adjourned indefinitely 'sine die' and the claim by CWorks to be proceeded by the way of arbitration. CWorks has filed an appeal against the Registrar's decision and hearing date has been fixed on 16 June 2008.

The Company's solicitors are of the opinion that CWorks' claims are premature in nature and in breach of its contractual obligations.
