16. Performance review

The Group recorded a revenue of RM25.30 million for the current quarter under review, which is RM12.77 million or 102% higher than the corresponding quarter of RM12.53 million for the previous financial year, mainly due to substantial increase in revenue from the provision of ICT support services for healthcare sector. Despite the higher revenue, the Group reported a loss before taxation of RM0.38 million for the current quarter under review compared to profit before tax of RM0.21 million for the corresponding quarter of previous year, mainly attributable to higher operating costs recorded for the current quarter review.

The Group's revenue of RM51.03 million for the current financial period ended 30 September 2008 is RM10.46 million or 26% higher than the revenue of RM40.57 million reported in the previous financial period ended 30 September 2007, mainly contributed by ICT support services segment. Despite the higher revenue, the Group reported a loss before taxation of RM3.43 million for the current financial period ended 30 September 2008 as oppose to the profit before tax of RM3.07 million for the previous financial period, mainly attributable to lower gross profit margin for engineering contracts and higher operating costs.

17. Material changes in profit before taxation for the current quarter as compared with the preceding quarter

In line with the increase in revenue, the Group's loss before tax dropped by RM0.60 million or 61% from RM0.99 million for the preceding quarter ended 30 June 2008 to RM0.38 million for the current quarter ended 30 September 2008.

18. Current year prospects

The Group's core business, i.e. provision of engineering solutions in relation to IBMS and ISMS remains as the main contributor to the Group's revenue. However, its gross margin has dropped as a result of intense market competition and material price hike. The subsidiary that provides ICT support services for healthcare sector has shown encouraging growth and is expected to have positive impact to the Group's performance.

Both local and overseas business environment are expected to remain challenging in view of the global economic uncertainties. Nevertheless, the Group is taking various measures to enhance operational efficiency and effective cost management to mitigate the losses. At the same time, the Group will continue focusing on its marketing strategies in order to improve the performance of the Group.

The Court has postponed the full trial date for the suit to 19 and 20 May 2009. MESB's solicitors are of the opinion that MESB has a good chance of succeeding in its claim.
- (ii) Lee Bee Leng & two (2) others vs (1) MESB and (2) University Teknologi Petronas ("UTP"). On 15 November 2005, MESB, being the first (1st) defendant was served with a Writ of Summons dated 24 October 2005 by Lee Bee Leng & two (2) others ("Plaintiffs") claiming for among others general damages amounting to RM500,000 or to be taxed by the court ("Negligence Claim") and special damages amounting to RM403,550 ("Dependency Claim") due to the death of the 1st Plaintiff's husband and 2nd & 3rd Plaintiff's father at UTP job site. The maximum exposure to liabilities of MESB and UTP is therefore estimated at RM903,550. The Plaintiffs claimed that the death was caused by the alleged negligence of MESB and UTP.

MESB's solicitors are of the view that MESB may be able to resist the Dependency Claim successfully by virtue of the fact that the claim is beyond the legitimate timeframe, which is three (3) years ("Defence of Limitation"). As such, an application for striking out the Dependency Claim dated 7 September 2006 had been filed with the Ipoh High Court. The Court had on 14 November 2008 disallowed the Plaintiffs' Dependency Claim, thus reducing MESB and UTP's exposure to RM500,000.

For the Negligence Claim, MESB's solicitors are of the view that the Plaintiffs' claim would very much depend on, among other things, the availability and strength of the Plaintiffs' witnesses' testimonies and the proving of the requisite ingredients of the negligence by the Plaintiffs on the balance of probabilities. If the Plaintiffs fail to reach the standard required, then the Plaintiffs' action will fail against MESB and UTP. Moreover, the Plaintiffs must also prove specific acts or omissions of MESB and UTP, that are alleged to be negligent. In the opinion of MESB's solicitors, MESB should have a good arguable case. MESB's solicitors have filed an application to strike out the Negligence Claim and the Court has fixed 16 February 2009 for mention of the Suit.

26. Changes in material litigation (contd.)

- (iii) On 9 January 2007, MGB through its solicitors, received a Writ of Summons and Statement of Claim dated 23 November 2006 with the High Court of Shah Alam issued by CWorks Systems Berhad ("CWorks"). CWorks is claiming an outstanding amount of RM1,751,617 from MGB pursuant to a Software Development Agreement dated 9 May 2005 ("the Agreement") for the development and provision of a software for the National Product Code System, the Sale Force System and the Project Management Tool System in the People's Republic of China ("PRC"). The maximum exposure to MGB is estimated at RM1,751,617.

The Company's solicitors had on 16 January 2007 filed a Conditional Appearance challenging the action as not within the Jurisdiction of the High Court of Malaya but any remedy sought by CWorks should be referred to Arbitration under Malaysian Laws. On 30 August 2007, the Deputy Registrar of the High Court of Shah Alam has allowed the Company's application that the Suit by CWorks against the Company to be adjourned indefinitely 'sine die' and the claim by CWorks to be proceeded by the way of arbitration. However, CWorks filed an appeal against the Registrar's decision and the High Court has allowed the appeal and set aside the Order of 'sine die'. The Company's solicitors will be filing an appearance and defence at the earliest.

The Company's solicitors are of the opinion that CWorks' claims are premature in nature and in breach of its contractual obligations.
